

Polywater® Type KC™

CONTACT CLEANER

Cleaning an electrical contact

Fast-Acting Cleaner for
Contacts and Electrical
Apparatus

PRODUCT BENEFITS

- **No Flashpoint:** Safe and non-flammable.
- **Non-Conductive:** Will not short across typical electrical voltages.
- **No Residue:** Evaporates completely.
- **Compatible:** Safe to use on plastics, metal, and rubber.
- **Safe:** Replaces chlorinated electrical cleaners.

Safe on Plastics and Sensitive Electronics

Polywater® KC™ Electrical Contact & Equipment Cleaner can be used to clean busbars, breakers, controls, switches, substation relays, meters, traffic control electronics, cables, etc. It effectively cleans oxidation, dust, light oils, flux residue, and condensation from electrical equipment.

Effectively cleans circuit boards

Industrial cleaning applications

Catalog # KC-16

Precision Cleaning Made Easy

Polywater KC is safe for use on most plastics, rubber, and metal. Use with confidence when cleaning sensitive electronics, electrical equipment, and circuit boards. In compliance with national and local regulatory requirements, Type KC has low VOCs and contains no ozone-depleting chemicals or known or suspected carcinogens. It is safer to use in confined spaces compared to chlorinated solvents. Packaged with a precision directional application straw.

POLYWATER KC

Catalog #	Package Description	Units/Case
KC-16	16-oz. aerosol can (475 mL)	12

SPECIFICATIONS AND APPLICATIONS:

- **Dielectric Strength:** >25KV at a 100-mL gap per ASTM D877 standard test method.
- **Flashpoint:** None per ASTM D93 standard test method.
- **Residue:** <100 ppm per ASTM D2369 standard test method. Leaves no residue.
